

Office Suites PLUS Opens Location in Memphis

Office Suites PLUS announces the opening of its first location in Memphis located at 6000 Poplar Avenue, Suite 250 in the East Memphis submarket. This new, state-of-the-art office suite is approximately 15,538 square feet and includes individually furnished offices, meeting rooms, high speed Internet access, and administrative support services.

According to James C. Baughman, Jr., President, the Company's operating practices and philosophies are specifically designed to meet the office and support needs demanded by today's challenging business environment. "Often a company's success depends on its flexibility, access to a market, and ability to communicate with its employees. At Office Suites PLUS, our goal is to provide solutions for companies that desire a professional image but need a better alternative to traditional, long-term leases and traditional office practices."

Office Suites PLUS currently operates over 35 locations in nine states. The Company provides office space for those needing it on a full-time basis, as well as virtual offices for those requiring it on less than a full-time basis. For office clients, standard features include a direct dial telephone number, personalized telephone answering services with company specific greetings and information, voicemail services, use of our meeting rooms and guest offices, and access to our other office suites. Additional services—such as administrative support, use of copy machines, videoconferencing, overnight mail delivery, and much more—are available on an "as needed" basis. Those requiring a virtual office have access to the same services, only without the full-time office.

Typical office clients for Office Suites PLUS include corporations that only require one or two employees in a market. These include area and regional offices; professionals providing training or support for a limited engagement; and companies that are looking to expand on a limited basis to a new market or downsize from larger, more expensive space in an existing market. Virtual office clients typically include small businesses and individuals working from home that want a professional image and support services.

In addition to this new office suite in Memphis, other suites operated by Office Suites PLUS are located in Fort Lauderdale, Jacksonville, Miami, Orlando, Palm Beach Gardens, and Tampa, Florida; Alpharetta, Atlanta, Decatur, Duluth, Lawrenceville, Marietta, and Norcross, Georgia; Indianapolis, Indiana; Lexington, Kentucky; Annapolis, Maryland; Cary, Charlotte, and Raleigh, North Carolina; Cincinnati and Columbus, Ohio; Knoxville and Nashville, Tennessee; and Richmond, Virginia.
